CONTENTS

VOLUME 81 • NUMBER 1 • JANUARY 1983

1 RICHARD S. HABER and JOHN N. LOEB. The concentration dependence of active K^+ transport in the turkey erythrocyte. Hill analysis and evidence for positive cooperativity between ion binding sites

29 WALTER F. BORON and EMILE L. BOULPAEP. Intracellular pH regulation in the renal proximal tubule of the salamander. Na-H exchange

53 WALTER F. BORON and EMILE L. BOULPAEP. Intracellular pH regulation in the renal proximal tubule of the salamander. Basolateral HCO_3^- transport

95 PHILIP A. KNAUF, FOON-YEE LAW, and PAMELA J. MARCHANT. Relationship of net chloride flow across the human erythrocyte membrane to the anion exchange mechanism

127 O. FRÖHLICH, C. LEIBSON, and R. B. GUNN. Chloride net efflux from intact erythrocytes under slippage conditions. Evidence for a positive charge on the anion binding/transport site

VOLUME 81 • NUMBER 2 • FEBRUARY 1983

153 J. R. HUME and W. GILES. Ionic currents in single isolated bullfrog atrial cells

195 ANDREA WEISBERG, GEORGE MCCLELLAN, MARIANNE TUCKER, LIN-ER LIN, and SAUL WINEGRAD. Regulation of calcium sensitivity in perforated mammalian cardiac cells

213 HENRY J. MLEKODAY, RICHARD MOORE, and DAVID G. LEVITT. Osmotic water permeability of the human red cell. Dependence on direction of water flow and cell volume

221 ROBERT R. MAYRAND and DAVID G. LEVITT. Urea and ethylene glycol-facilitated transport systems in the human red cell membrane. Saturation, competition, and asymmetry

239 DAVID G. LEVITT and HENRY J. MLEKODAY. Reflection coefficient and permeability of urea and ethylene glycol in the human red cell membrane

255 JOHN A. DANI, JORGE A. SANCHEZ, and BERTIL HILLE. Lyotropic anions. Na channel gating and Ca electrode response

283 J. BRAHM. Permeability of human red cells to a homologous series of aliphatic alcohols. Limitations of the continuous flow-tube method

VOLUME 81 • NUMBER 3 • MARCH 1983

305 AKIRA WARASHINA and SHOZO FUJITA. Effect of sea anemone toxins on the sodium inactivation process in crayfish axons

325 M. ZAMIR, S. M. WRIGLEY, and B. L. LANGILLE. Arterial bifurcations in the cardiovascular system of a rat

337 RICHARD J. PAUL. Physical and biochemical energy balance during an isometric tetanus and steady state recovery in frog sartorius at 0°C

355 ROBERT S. ZUCKER and LUIS O. LARA-ESTRELLA. Post-tetanic decay of evoked and spontaneous transmitter release and a residual-calcium model of synaptic facilitation at crayfish neuromuscular junctions

373 WALTER F. BORON and JOHN M. RUSSELL. Stoichiometry and ion dependencies of the intracellular-pH-regulating mechanism in squid giant axons

401 D. G. SHOEMAKER and P. K. LAUF. [^{3}H]Ouabain binding and Na^+,K^+-ATPase in resealed human red cell ghosts

421 A. S. VERKMAN, JAMES A. DIX, and A. K. SOLOMON. Anion transport inhibitor binding to band 3 in red blood cell membranes

VOLUME 81 · NUMBER 4 · APRIL 1983

453 P. J. BJERRUM, J. O. WIETH, and C. L. BORDERS, JR. Selective phenylglyoxalation of functionally essential arginyl residues in the erythrocyte anion transport protein

485 KURT G. BEAM and P. LYNN DONALDSON. A quantitative study of potassium channel kinetics in rat skeletal muscle from 1 to 37°C

513 KURT G. BEAM and P. LYNN DONALDSON. Slow components of potassium tail currents in rat skeletal muscle

531 SUECHIKA SUZUKI and HARUO SUGI. Extensibility of the myofilaments in vertebrate skeletal muscle as revealed by stretching rigor muscle fibers

547 CHRIS LINGLE and ANTHONY AUERBACH. Comparison of excitatory currents activated by different transmitters on crustacean muscle. I. Acetylcholine-activated channels

571 CHRIS LINGLE and ANTHONY AUERBACH. Comparison of excitatory currents activated by different transmitters on crustacean muscle. II. Glutamate-activated currents and comparison with acetylcholine currents present on the same muscle

589 T. SAITO and A. KANEKO. Ionic mechanisms underlying the responses of off-center bipolar cells in the carp retina. I. Studies on responses evoked by light

603 A. KANEKO and T. SAITO. Ionic mechanisms underlying the responses of off-center bipolar cells in the carp retina. II. Studies on responses evoked by transretinal current stimulation

VOLUME 81 · NUMBER 5 · MAY 1983

613 BRUCE P. BEAN, CHARLES J. COHEN, and RICHARD W. TSIEN. Lidocaine block of cardiac sodium channels

643 HERBERT S. CHASE, JR. and QAIS AL-AWQATI. Calcium reduces the sodium permeability of luminal membrane vesicles from toad bladder. Studies using a fast-reaction apparatus

667 Dale J. Benos, Barbara A. Hyde, and Ramon Latorre. Sodium flux ratio through the amiloride-sensitive entry pathway in frog skin

687 Helene M. Hoffmann and Vincent E. Dionne. Temperature dependence of ion permeation at the endplate channel

705 Karl-Uwe Petersen and Luis Reuss. Cyclic AMP-induced chloride permeability in the apical membrane of *Necturus* gallbladder epithelium

731 David Piwnica-Worms, Ron Jacob, C. Russell Horres, and Melvyn Lieberman. Transmembrane chloride flux in tissue-cultured chick heart cells

749 Saul Winegrad, George McClellan, Marianne Tucker, and Lin-Er Lin. Cyclic AMP regulation of myosin isozymes in mammalian cardiac muscle

767 Letter to the Editor
Richard Payne and Alan Fein. Localized adaptation within the rhabdomeral lobe of *Limulus* ventral photoreceptors

VOLUME 81 · NUMBER 6 · JUNE 1983

773 Robert E. Taylor and Francisco Bezanilla. Sodium and gating current time shifts resulting from changes in initial conditions

785 Haim Garty and Isidore S. Edelman. Amiloride-sensitive trypsinization of apical sodium channels. Analysis of hormonal regulation of sodium transport in toad bladder

805 M. Anderson. Mn ions pass through calcium channels. A possible explanation

829 Jean Marc Dubois, Martin F. Schneider, and Boris I. Khodorov. Voltage dependence of intramembrane charge movement and conductance activation of batrachotoxin-modified sodium channels in frog node of Ranvier

845 Edward D. Lipson and Steven M. Block. Light and dark adaptation in *Phycomyces* light-growth response

861 Paul Logue, Cathleen Anderson, Cynthia Kanik, Beverley Farquharson, and Philip Dunham. Passive potassium transport in LK sheep red cells. Modification by *N*-ethyl maleimide

887 D. M. Senseman, H. Shimizu, I. S. Horwitz, and B. M. Salzberg. Multiple-site optical recording of membrane potential from a salivary gland. Interaction of synaptic and electrotonic excitation

909 John M. Russell. Cation-coupled chloride influx in squid axon. Role of potassium and stoichiometry of the transport process

927 Author Index to Volume 81
